Accounting Rule Change

Beginning in January 2018, ITG implemented a new accounting rule and will be recognizing global commission revenue attributed to Analytics products under bundled arrangements over the course of the annual service period. This change is expected to result in the deferral of approximately \$4 million of commission revenue in the first quarter of 2018 and approximately \$2 million in the second quarter of 2018. These reductions are expected to be offset by increases to third and fourth quarter 2018 commission revenues of approximately \$2 million and \$4 million, respectively.
