Accounting Rule Change

Beginning in January 2018, ITG implemented a new accounting rule and is recognizing global commission revenues attributed to analytics products under bundled arrangements over the course of the annual service period. This change resulted in the deferral of \$4.9 million of commission revenues in the first half of 2018 and the recognition of \$2.1 million of previously deferred commissions in the third quarter of 2018. ITG expects substantially all the remaining \$2.8 million in revenues deferred in the first half of the year to be recognized in the fourth quarter of 2018. The new accounting rule also accelerates the recognition of software license fees for a full period upon renewal. This change increased revenues by \$0.9 million in the first half of 2018 and reduced revenues by \$0.4 million in the third quarter of 2018.

Conference Call on 3Q18 Results

Due to the announced merger with Virtu Financial, Inc., ITG will not host a conference call on third quarter 2018 results.

Non-GAAP Financial Measures

To supplement our financial information presented in accordance with accounting principles generally accepted in the U.S. ("GAAP"), management uses certain "non-GAAP financial measures" as such term is defined in Regulation G promulgated by the SEC. Generally, a non-GAAP financial measure is a numerical measure of a company's operating performance, financial position or cash flows that excludes or includes amounts that are included in, or excluded from, the most directly comparable measure calculated and presented in accordance with GAAP. Management believes the presentation of these measures provides investors with greater transparency and supplemental data relating to our financial condition and results of operations, and therefore a more complete understanding of factors affecting our business than GAAP measures alone. In addition, management believes the presentation of these matters is useful to investors for period-to-period comparison of results as the items may reflect certain unique and/or non-operating items such as acquisitions, divestitures, restructuring charges, write-offs and impairments, charges associated with litigation or regulatory matters together with related expenses or items outside of management's control.

Adjusted expenses, adjusted pre-tax income (loss), adjusted income tax expense, adjusted net income (loss) and adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), together with related per share amounts, are non-GAAP performance measures that we believe are useful to assist investors in gaining an understanding of the trends and operating results for our core business. These measures should be viewed in addition to, and not in lieu of, results reported under GAAP.

Reconciliations of adjusted expenses, adjusted pre-tax income (loss), adjusted income tax expense, adjusted net income (loss) and adjusted EBITDA to expenses, income (loss) before income tax expense, income tax expense, net income (loss) and related per share amounts as determined in accordance with GAAP for the three and nine months ended September 30, 2018, are provided in the accompanying supplemental tables at the end of this release.

Forward Looking Statements

In addition to historical information, this press release may contain "forward-looking" statements that reflect management's expectations for the future. In some cases, you can identify these statements by forward-looking words such as "may," "might," "will," "could," "should," "would," "expect," "plan," "anticipate," "believe," "estimate," "predict," "trend," "potential" or "continue" and the negative of these terms and other comparable terminology. A variety of important factors could cause results to differ materially from such statements.

Factors relating to the Merger include, but are not limited to, the completion of the Merger in a timely manner or at all, obtaining required governmental approvals of the Merger on the terms expected or on the anticipated schedule, the Company's stockholders failing to approve the Merger, the parties to the Merger Agreement failing to satisfy other conditions to the completion of the Merger, or failing to meet expectations regarding the timing and completion of the Merger, the occurrence of any event, change or other circumstance that could give rise to the termination of the Merger Agreement, the effect of the announcement or pendency of the Merger on the Company's business relationships, operating results, and business generally, risks that the proposed Merger disrupts current operations of the Company and potential difficulties in employee retention as a result of the Merger, risks related to diverting management's attention from the Company's ongoing business operations, the outcome of any legal proceedings that may be instituted against the Company related to the Merger Agreement or the Merger, and the amount of the costs, fees, expenses and other charges related to the Merger.

Certain additional factors are noted throughout ITG's 2017 Annual Report on Form 10-K, and its Form 10-Qs (as amended, if applicable) and include, but are not limited to, general economic, business, credit, political and financial market conditions, both internationally and domestically, financial market volatility, fluctuations in market trading volumes, effects of inflation, adverse changes or volatility in interest rates, fluctuations in foreign exchange rates, evolving industry regulations and increased regulatory scrutiny, the outcome of contingencies such as legal proceedings or governmental or regulatory investigations and customer or shareholder reaction to, or further proceedings or sanctions based on, such matters, the volatility of our stock price, changes in tax policy or accounting rules, the ability of the Company to utilize its loss and tax credit carryforwards, the actions of both current and potential new competitors, changes in commission pricing, rapid changes in technology, errors or malfunctions in our systems or technology, operational risks related to misconduct or errors by our employees or entities with which we do business, cash flows into or redemptions from equity mutual funds, ability to meet the capital and liquidity requirements of our securities business and the related clearing of our customers' trades, customer trading patterns, the success of our products and service offerings, our ability to continue to innovate and meet the demands of our customers for new or enhanced products, our ability to protect our intellectual property, our ability to execute on strategic initiatives or transactions, our ability to attract and retain talented employees, and our ability to pay dividends or repurchase our common stock in the future.

Notes

- (1) In the second quarter of 2018, the Company incurred a charge to establish an accrual of \$12.0 million for a potential settlement with the SEC of an investigation into the operational features of U.S. POSIT and access to U.S. POSIT data, together with certain related disclosures, and incurred related legal fees of \$0.2 million. Additional legal fees of \$0.8 million were incurred in the third quarter of 2018. Due to the non-deductibility of the settlement charge and the full valuation allowance on U.S. deferred tax assets, there is no tax effect on this adjustment. See ITG's Third Quarter 2018 Form 10-Q filing for additional details.
- (2) During the three and nine months ended September 30, 2018, the Company incurred restructuring charges of \$3.4 million and \$10.6 million, respectively, related to the elimination of certain positions in the U.S. and the reduction of office space in Los Angeles. Due to the full valuation on U.S. deferred tax assets, there is no tax effect on this adjustment.

- (3) During the three and nine months ended September 30, 2018, the Company incurred a charge of \$0.9 million to increase the liability for vacated office space in New York.
 - (4) In the third quarter of 2017, the Company deemed the remaining value of a customer intangible asset recorded in ITG Derivatives of \$0.3 million fully impaired and incurred legal fees of \$0.8 million related to the formation of the Matrix derivatives venture that was completed in the first quarter of 2018.
 - (5) During the nine months ended September 30, 2018, the Company resolved a multi-year tax contingency in the U.S. and reduced tax reserves by \$1.9 million.
 - (6) In the third quarter of 2017, the Company determined that it was appropriate to establish a full valuation allowance on its U.S. deferred tax assets, of which \$42.3 million related to periods prior to the third quarter of 2017.
